

Risk Management: Liquidity Risk

Date: January 28th-30th 2020
Venue: Kosovo Banking Association

COURSE OVERVIEW

Since the Financial Crisis of 2008, which is often described as a liquidity crisis, liquidity risk has become a major area of focus in risk management. Many of the changes in Basel III target liquidity risk and how banks can protect themselves against it. The purpose of this two-day course is to provide participants with a good understanding of liquidity risk and how to manage it.

By the end of this course, participants will be able to:

- Understand the various forms of liquidity risk and their sources
- Analyze funding and asset liquidity risk
- Judge the impact of governance and organizational structure on liquidity risk
- Apply the most common methods for measuring liquidity risk
- Develop a contingency funding plan
- Evaluate the regulatory environment for liquidity risk in banks and investment funds
- Understand the changes in Basel III regarding liquidity risk

METHODOLOGY

The methodology is based on theoretical lectures, numerous practical exercises, interactivity and exchange of views, case studies.

AUDIENCE

Banking professionals from banks (commercial and central), financial institutions or supervision authorities, who already has good knowledge of risk management fundamentals and who wishes to acquire a practical understanding of liquidity risk. A good command of English is required!
