## **CERTIFICATION PROGRAMME: RISK MANAGEMENT IN BANKING (revised edition)**

---

Risk management in banking has been transformed over the past decade, largely in response to regulations that emerged from the global financial crisis and the fines levied in its wake. But important trends are afoot that suggest risk management will experience even more sweeping changes in the next decade.

While the magnitude and speed of these changes is unlikely to be uniform across countries, the future undoubtedly holds more regulation—both financial and nonfinancial—even for banks operating in emerging economies.

In order for professionals from its partner countries to be equipped with the necessary knowledge and tools to identify and manage risks in the most efficient way, The House of Training – ATTF ([www.attf.lu](http://www.attf.lu)) in cooperation with ALRiM, the Luxembourg Association for Risk Management ([www.alrim.lu](http://www.alrim.lu)) has fully revised its **Certification Programme: Risk Management in Banking**.

The programme is now based on a blended approach with:

- a mandatory **e-learning preparation** on fundamentals of risk management
- an **instructor-led course** that will be held **in Luxembourg from 2<sup>nd</sup> to 13<sup>th</sup> March 2020** (9.5 working days).

The certification programme, supported by the **Luxembourg Government**, will be delivered by senior experts with an in-depth experience in risk management and willing to share their expertise in this field.

The programme is open to participants selected by the House of Training/ATTF and ALRiM experts. The selection will be based on objective criteria such as the applicants' present function as well as their professional and educational background. The geographical location will not be a selection factor, unless this course is oversubscribed where a quota of places per country may be applied. A **very good command of English** is required.

If you are **Risk Manager, Auditor or Department Manager** with a minimum of 3 years experience in a banking environment, and wish to arm yourself with comprehensive skills in risk management, this programme is for you!

By earning the "Risk Management in Banking" certificate, you will signal to your employer that you are serious about risk management and that you can objectively demonstrate a standardized level of up-to-date industry knowledge, vital to protecting your institution.

We invite you to have a look at the attached documents to get more details on the programme (e-learning and instructor-led course) and the financial conditions. In order to promote access to this unique learning opportunity, that we cannot organize in your own country, we have made sure that the financial support of the Luxembourg Ministry of Finance is kept at its highest level.

HOUSE OF TRAINING

If you are interested in this course please fill in the attached application and send it back **by 10 January 2020** to House of Training/ATTF **official Partner in your country**. Please note that only fully completed forms will be considered.

Our comprehensive programme will not only enable you to confidently identify and manage risks in your organization, but will also give you the chance to interact with international peers.

Should you need any further information, do not hesitate to get in touch with us. We look forward to welcoming you to Luxembourg for this exciting new programme.

Yours sincerely,

Hilda LUTGEN  
Project Manager

Ben LYON  
Director House of Training
