E-learning – European Data Protection Rules Under GDPR

COURSE OVERVIEW

There are 3 core objectives of this interactive elearning course:

1. Understand the scope and geographical reach of the EU General Data Protection Regulation;
2. Gain an appreciation of the impact that the regulation has on the way that you handle the data of clients and prospects;
3. Understand the consequences that a breach of the regulation or a data breach can have on your organization;

MODULES

1. Scope of General Data Protection Regulation;
2. The General Data Protection Regulation;
3. Data Subjects and Data Controllers;
4. Data Protection by Design;
5. Data Protection Breaches;
6. Summary;

KNOWLEDGE CHECK

There is a 10-question knowledge check at the end of the course with a standard pass mark of 80% and unlimited attempts. The 10 questions are drawn randomly from a larger bank of questions. Each attempt will draw a different mix of questions.

CERTIFICATION

All of the courses running on our platform can issue course completion certificates automatically to the users where they have obtained the learning objectives. Where required we can provide copies to nominated Compliance and Human Resources teams.

TARGET GROUP

The course is suitable for the employees of all services that use or hold personal data, both inside and outside of the EU, and that need to understand the rules of the upcoming EU General Data Protection Regulation.

PC AND BROWSER COMPATIBILITY

Our courses are designed for use on a desktop or laptop PC using an internet browser (Google Chrome, Apple Safari, Mozilla Firefox, Microsoft Internet Explorer or Microsoft Edge). Users should ensure that their browser is updated to the latest version. Our courses contain audio narration.
